

RENTAL FENCE YOUR WAY!

American Rental Fence offers a wide range of options for customers who want to invest in their own temporary fence systems. If you are constantly renting temporary fencing, moving from project to project, why rent if you can own? American Rental Fence makes it easy with several ownership-based services.

AMERICAN FENCE RENTAL

PURCHASE YOUR OWN TEMPORARY FENCE SYSTEM

If you are constantly installing and removing temporary fencing or anticipate long-term, multi-year project need, it may make sense to purchase your own temporary fence system in lieu of paying rent. American Rental Fence offers a wide range of temporary fence panels, stands, braces and hardware. We inventory all these materials for immediate needs. Use our online store, contact us for a quote or visit any of our ten service centers.

DELIVERY AND PICKUP Temporary fence panels and stands are big and heavy. Transporting these materials requires some serious trucking. Don't let this discourage you from purchasing your own system. We will transport these materials for you from jobsite to jobsite, jobsite to your storage area, or jobsite to our storage center. American Rental Fence has a fleet of tractor trailers, flatbeds, forklifts and transportation hardware.

LET US STORE YOUR TEMPORARY FENCE You need a good size storage area to store your temporary fence system. Panels are typically stacked in groups of no more than 25. A standard size system will require at least 1000 square feet of storage. If storage space is an issue, American Rental Fence can help. For a one time cost, we will store your system for you for up to a year. It is a minimal expense that saves you a great deal of space for more important needs.

INSTALLATION ONLY OPTIONS Once you purchase your own temporary fence system, you may be too busy to install and remove your system when the time comes. American Rental Fence can help. We offer installation and removal only services for those customers who own their own systems. Simply tell us how many feet or panels you need installed and removed. We will shoot you over a quote and stand ready to assist.

REPAIR & REPLACEMENT SERVICES As your temporary fence system is your first line of defense in protecting your project; your panels and stands will get damaged. If we are storing, installing or transporting your system for you; we are happy to assist in repairing your panels. If the materials cannot be repaired or it simply does not make sense, we offer replacement panels, stands and hardware. If storing your system with us, we will go through your system before storing and advise of any materials needing repaired or replaced.

American Rental Fence Company makes it easy for you to be in control of your temporary fence resources. Save money and time, own your system. This is a great option for customers wanting to customize their system with signage and screening.
